☎: (302) 690-2183

### PROFESSIONAL PROFILE

Around **4** years of extensive experience in web development utilizing HTML, CSS, JS and some more front end technologies. Specializing in W3C web standards based markup, utilizing semantic markup for structure and CSS for presentation. Have comprehensive knowledge of designing professional cross-browser experiences. Solid organizational, project and team management skills. Reliable, motivated, hard working, and attentive to details. Adaptive to new applications and technologies. Excellent communicator, both written and oral.

### TECHNICAL SKILLS

#### HTML5 & CSS3

**Expert**

Clean, semantic markup. Comfortable with HTML5. Cross-browser compatibility. Media queries for responsive layouts. Image sprites. CSS3 hardware-accelerated animations. Comfortable translating design files into valid code.

#### Javascript

**Expert**

Keen focus on javascript with a firm expertise in application design architecture, performance, security and testing. Developed client side javascript to simplify the user interaction. Exposure to javascript minification and deployment techniques.

#### jQuery

**Expert**

Experience with jQuery in an application context in addition to DOM manipulation. Built highly scalable cutting edge web

based applications using jQuery. Expert at creating flawless hand-coded production-quality, standards-based cross browser jQuery

## AngularJS, HAML

**Beginner**

Design and implement single page angular web application as a kanban tool to visualize project management and empower our team productivity with this single page web app.

## Bootstraps

**Advanced**

As a Freelance developer, developed different sites using Twitter bootstrap and Zurb Foundation framework. Also tried different bootstrap frameworks like HTML Kick Start, Cardinal bootstrap, Pure CSS bootstrap, Workless CSS/HTML framework.

## Responsive web design, Cross Browser

**Beginner**

Browser support provided for browsers like IE6, IE7, IE8, IE9+, FireFox, Chrome, Safari, Opera. Used CSS3Pie with Modernizr as a IE6-9 HTML 5 polyfill to support old IE's. Cross browser testing using IETester, Adobe browser labs, BrowserStack, BrowserShots, VMWare, VirtualBox virtual machines. Implemented Responsive web design with Twitter bootstrap and Zurb Foundation framework.

## Java

**Advanced**

Selenium RC, Selenium Web driver, Junit, Mockito, EasyMock, PowerMock, Hibernate, Spring.
